How to share the map?

Introduction

The map has been created and updated with the description and photos of the eco-paths selected in each partner country and with the Eco-paths cards. Also it has been integrated in the project website ecowalks.eu

Each Eco-card is in English and in the language of the country to which it refers.

The structure of the map is in the language of the country it corresponds to. And the content, such as the cards are in both English and the language of the country the path is in.

About the map

We used **Google Maps** to create this map, it is the most well-known tool. It's a very user friendly program for creating maps.

All the information that we need, such as **trails, points/icons, texts, links, images**, can be imported and **embed it** on the website.

Also, other options can be imported like, **GPX files** that showcase the paths/trails.

It is easy to **share the map via link** for viewing or you can **enable editing** and invite people to collaborate with you.

Also, it's **responsive** with most of the devices, cause it's **work more swiftly with pc & mobile**.

How it works?

01

Upload GPX files of
your desired routes

02

Put pins, add
description and images

03

If needed draw
routes, polygons, add
notes or more images

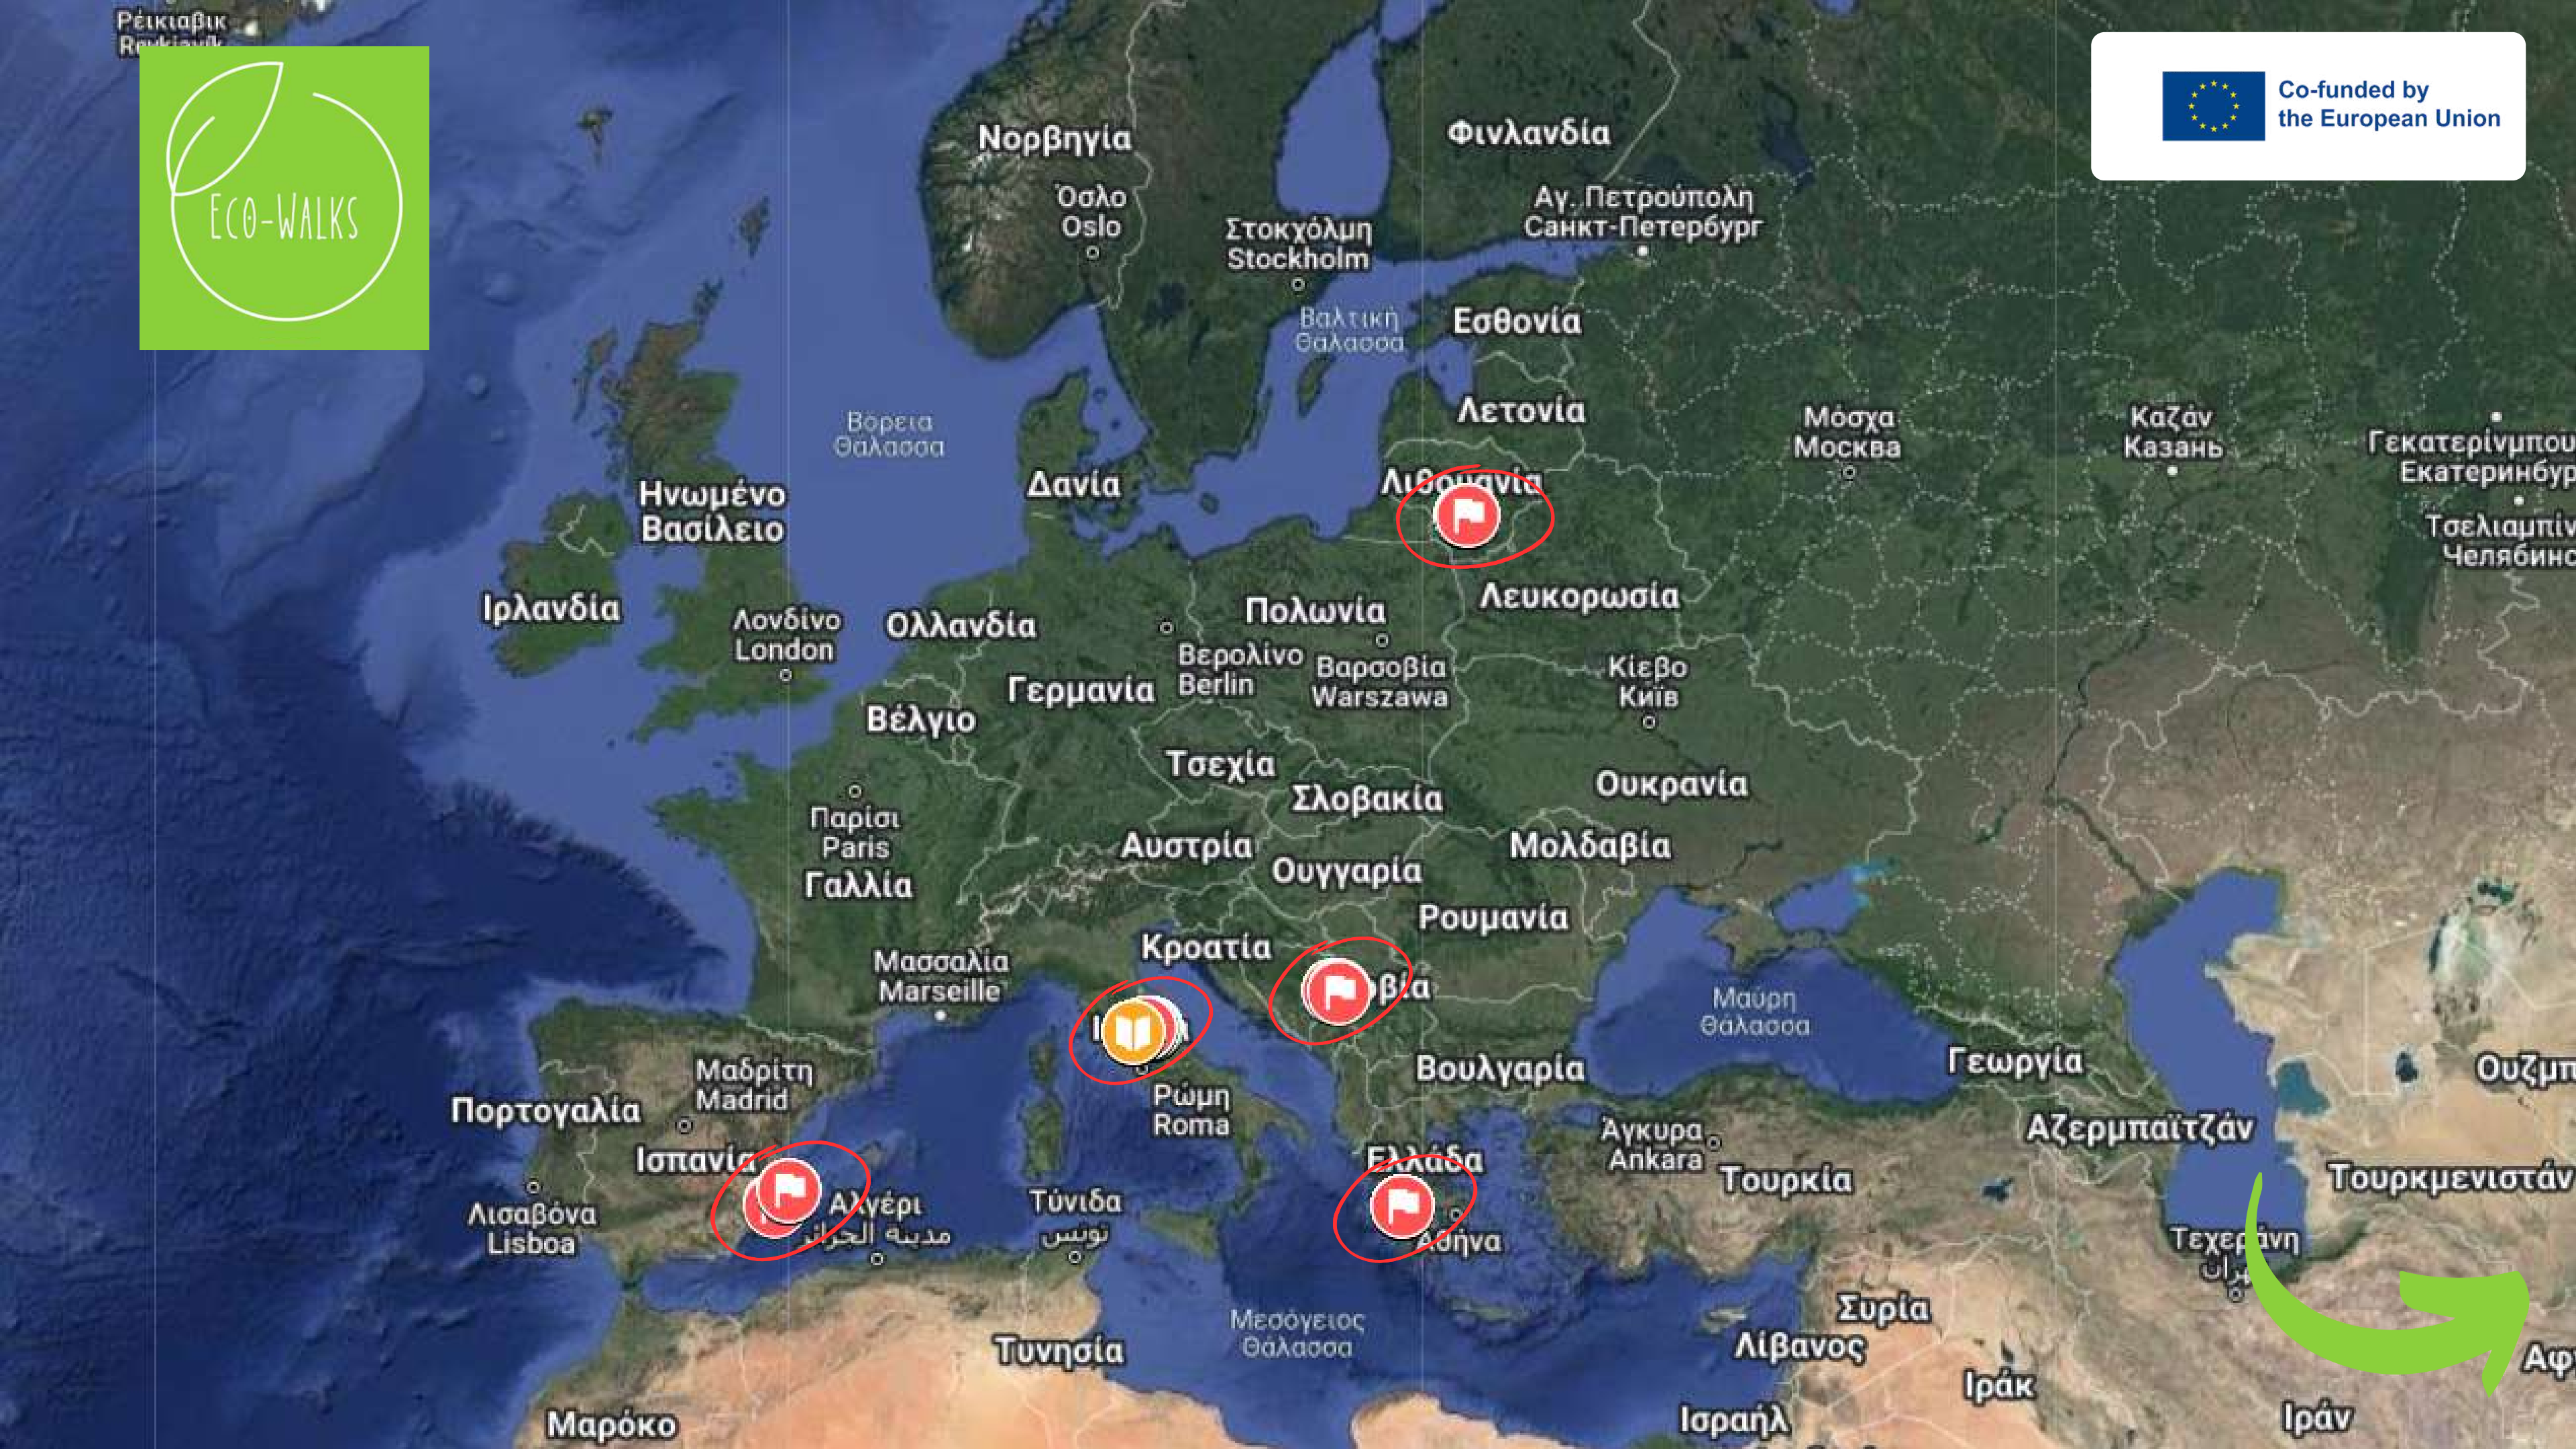

04

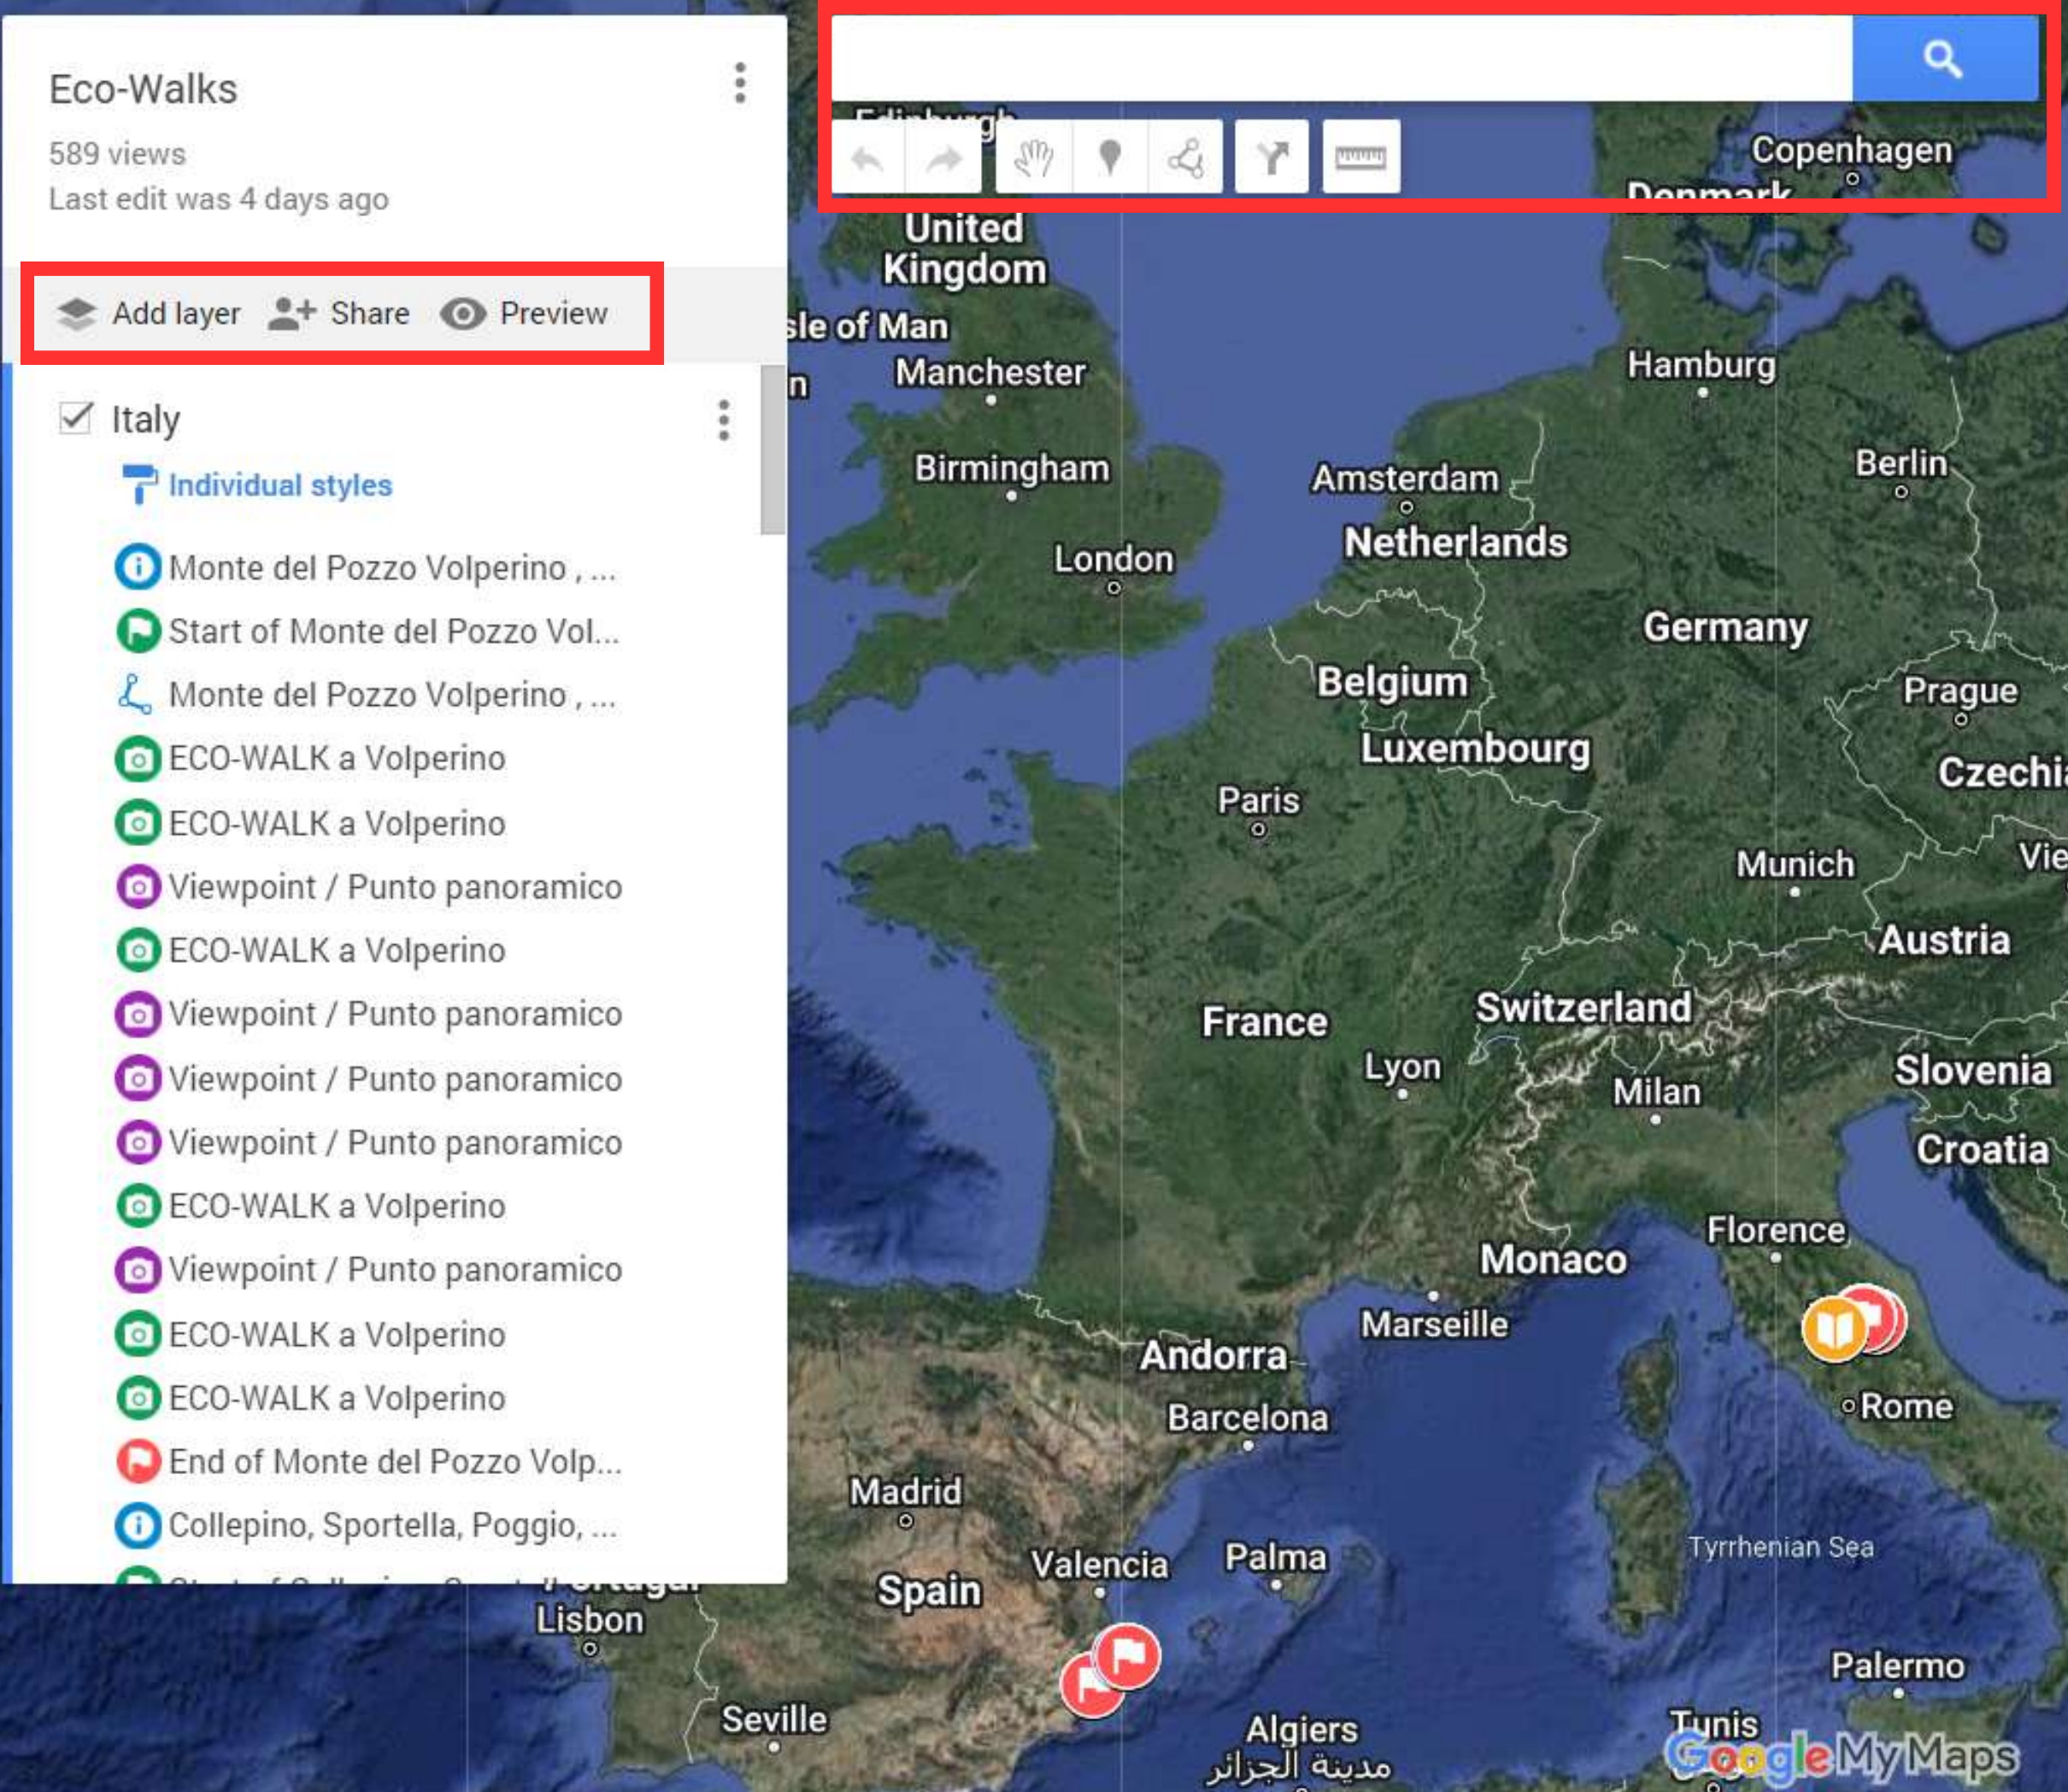

Share the map

- By using the top bar options you can add pins, styles, icons, images and descriptions.
- There is also a search bar for the correct location.
- In the left sidebar you can add layers, share the map and check the changes with the preview button

Raca Monastery, Ladjevac Spring

A detailed information card for the "Raca Monastery, Ladjevac Spring" path. The card includes a title, a small map, a bar chart showing elevation, a table with columns for distance, climb, and difficulty, a paragraph of text, and two images of the landscape. At the bottom, there are icons for navigation and a "1 of 2" indicator with a right arrow.

Distance: 2,2 km
Total climb: 500m
Difficulty Level : Easy
Linear Route 40 Minutes

↔ 2.15 km

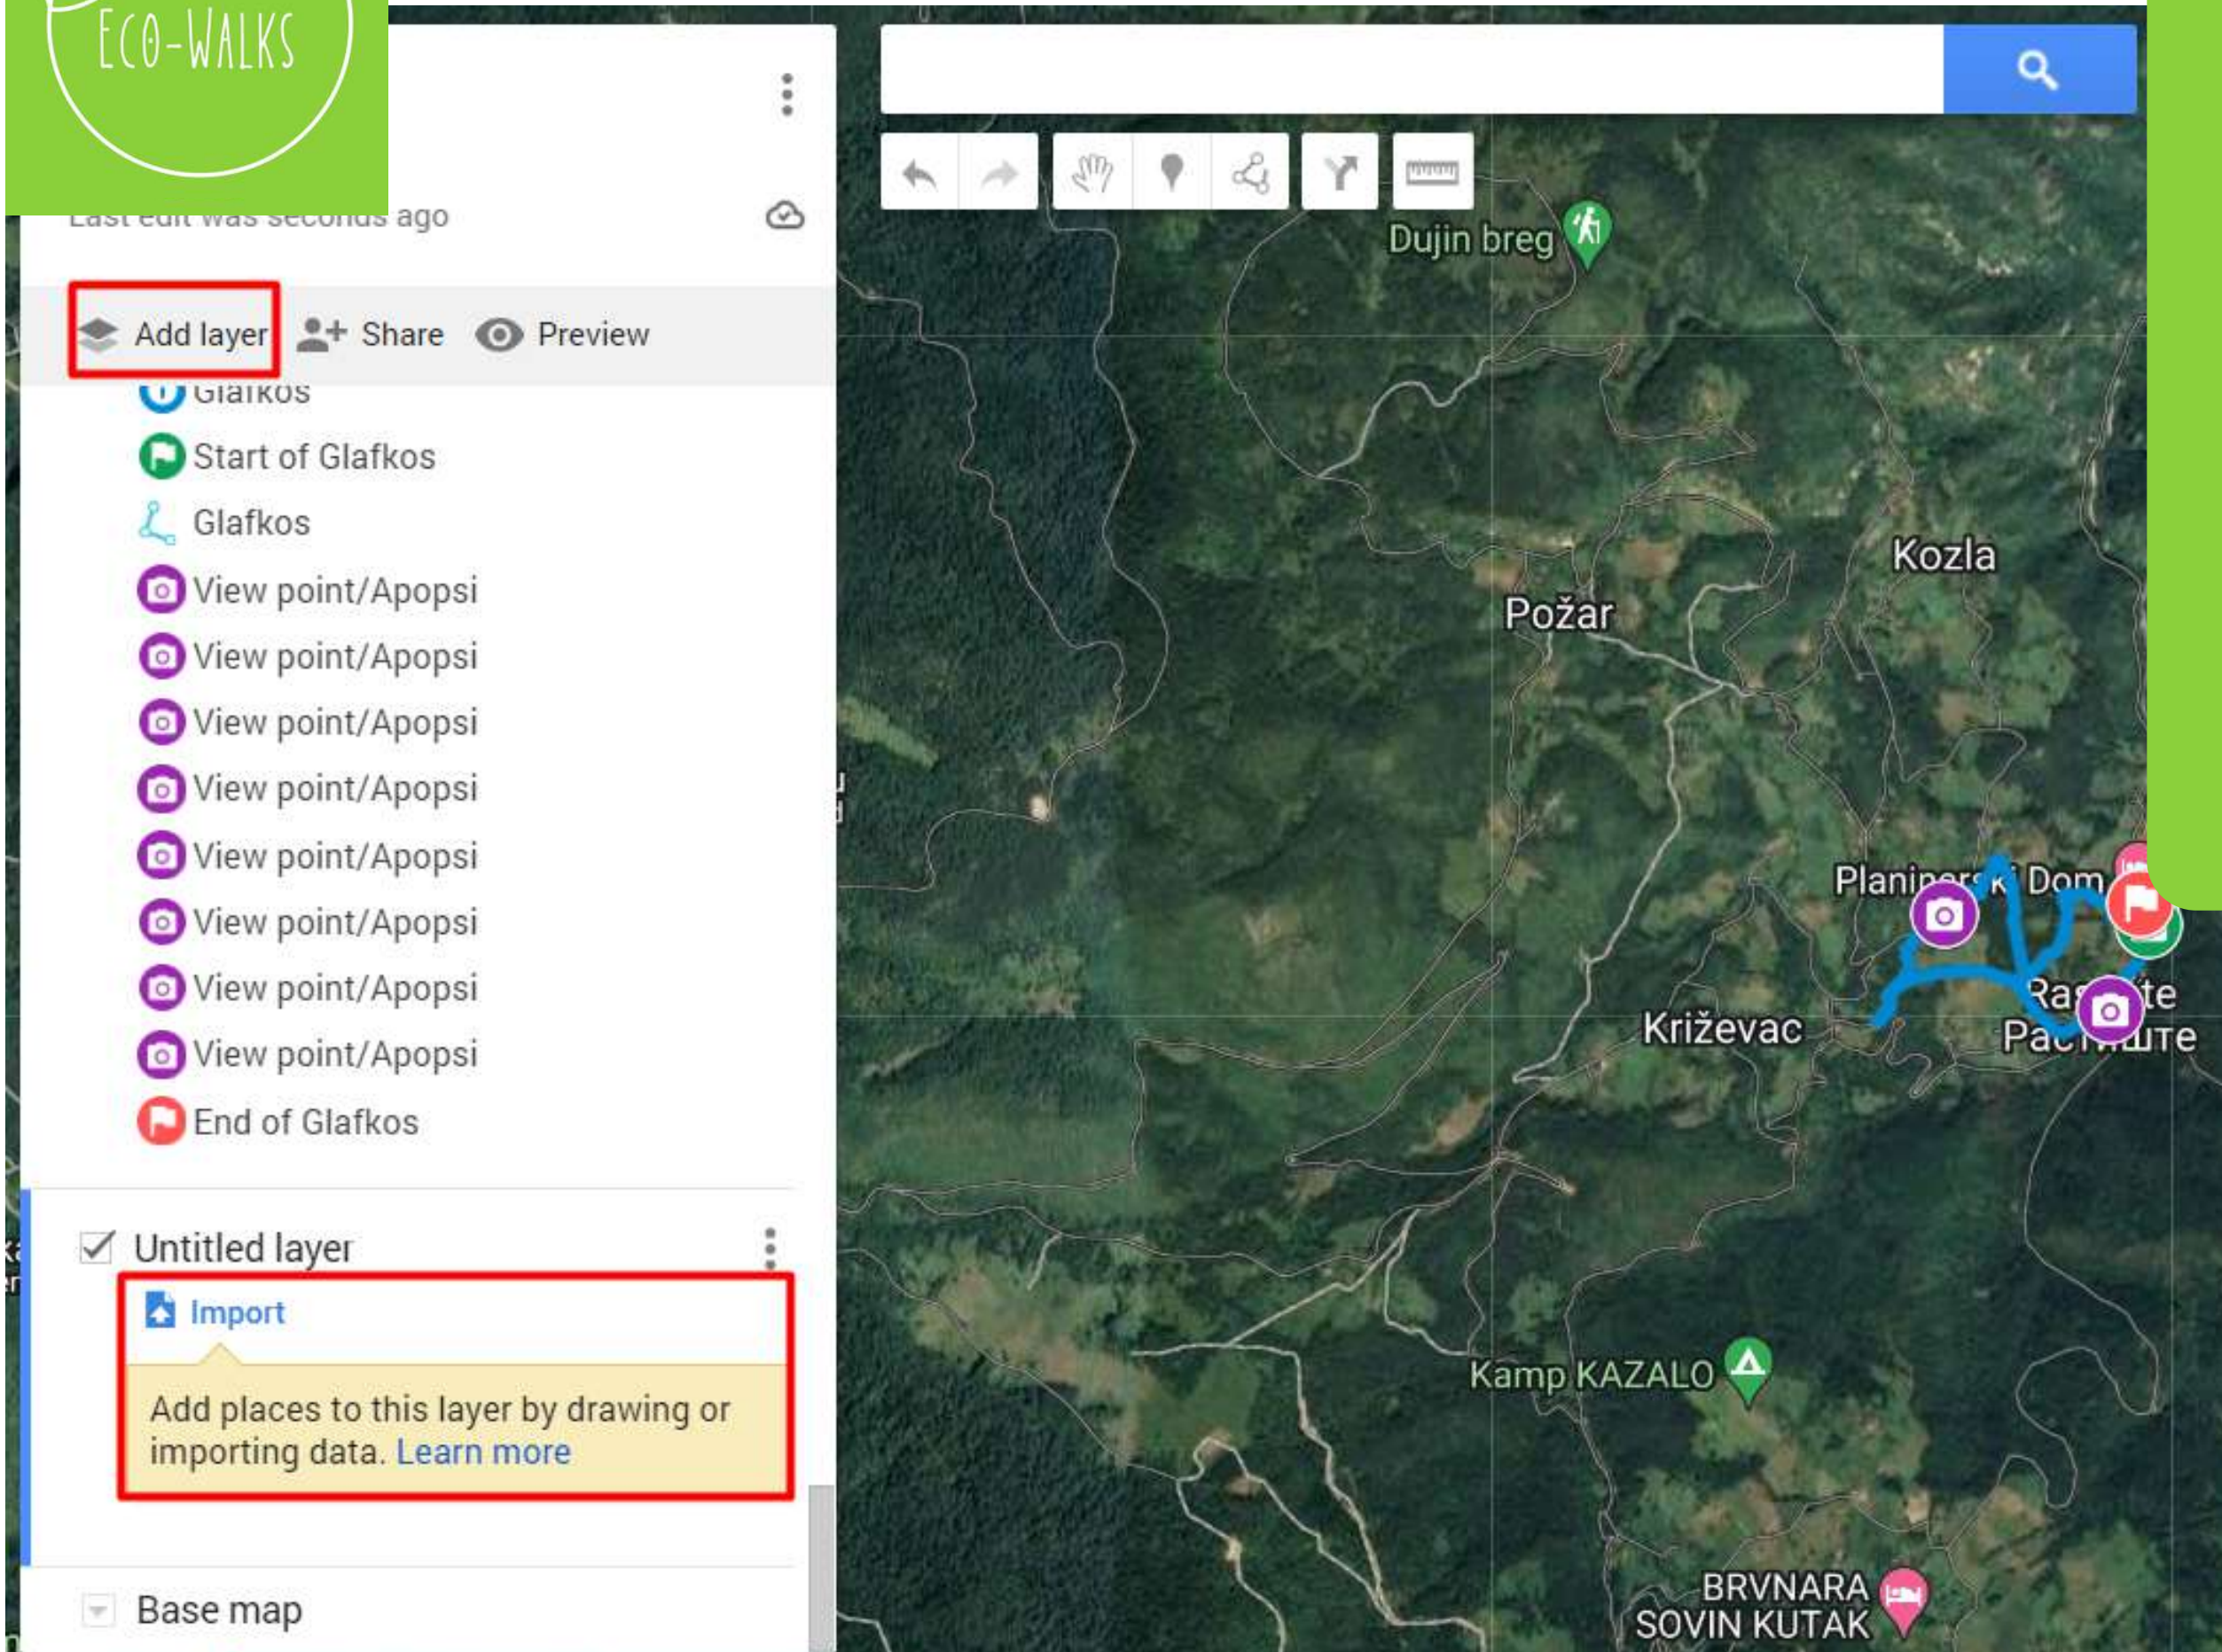

- You can use these options to upload and edit a specific point in a path.
- You can also add more images and edit the card of the path.

- Photos can be placed anywhere on the map.
- You can place them on the route itself or put the camera icons on the route and upload photos per pin.

- Select "Add layer"
- Press "Import in the new "Untitled Layer"
- Import the GPX or draw your path
- Drag and drop the path into the location that you want.

- You can add “Starting” and “Ending” points inside each path/route!
- There are different icons for both of them.

- Select pin icon
- Choose where you want to place it and click.
- Add title, description and a photo. You can also modify the icon.

Point 14

Hit the "style" icon inside the pin that you create!

43.94808, 19.35561

Colour

A color palette with various color swatches, including a blue swatch that is highlighted with a red arrow.

Popular Icons

A grid of popular icons including a home, restaurant, bar, speech bubble, flag, envelope, parking, question mark, camera, person, bicycle, wheelchair, star, and location pin.

Other icons

A row of other icons including a flag, information, book, green location pin, and red location pin.

More icons

You can change colors and select which icon is the best for you icons

Co-funded by
the European Union

All partners have the possibility to edit the map with a specific edit link.

Also, on the project website there is a fillable form where people can upload their desired paths from the respective country, and then every country representative can decide whether or not to add the suggested path to the map.

The map has been embedded on the Eco-walks website (ecowalks.eu), where anyone can view it.
